

CHANGE FOR THE  
BETTER WITH  
ENERGY STAR

EPA's ENERGY STAR® is a voluntary partnership between organizations, businesses, consumers, and government, united in the pursuit of a common goal: to protect our environment for future generations by changing to energy-efficient products and practices today.

In 2002 alone, ENERGY STAR helped businesses, schools, government institutions, and consumers save more than \$7 billion in energy costs while reducing greenhouse gas emissions equivalent to those from about 14 million cars.

If your organization would like to learn how efficiently your buildings perform, how to remodel existing buildings to improve their energy efficiency, or how to purchase energy-efficient products, ENERGY STAR can help.

Visit [www.energystar.gov](http://www.energystar.gov), or call the ENERGY STAR Hotline at 1-888-STAR-YES (1-888-782-7937).

## TRAINING OPPORTUNITY FOR SUPERINTENDENTS, CITY MANAGERS AND FACILITIES DIRECTORS

### TOOLS AND OFFERINGS FROM ENERGY STAR®

# Michigan Workshop on Improving Energy Performance in K-12 Schools and the Public Sector

The Michigan Energy Office along with EPA and DOE invite you to participate in a no-cost workshop on financing methods and tools to help your organization improve building energy performance. This workshop is tailored to help business managers, superintendents, energy managers, facilities personnel, and city managers to understand and improve the energy performance of facilities.

#### **This workshop will cover the following topics:**

- What is ENERGY STAR & How Can It Help?
- How to Achieve More Efficient Buildings With Better Working & Learning Environments
- Resources & Technical Tools Provided by ENERGY STAR
- Quantifying the Costs of Delaying Energy Efficiency Projects.

#### **Time and Location**

Michigan Historical Center & Library  
702 West Kalamazoo Street  
Lansing, MI 48909

**September 25, 2003**  
8:30 am - 12:30 pm

#### **Registration**

Please register online at:  
[www.michigan.gov/eoworkshops](http://www.michigan.gov/eoworkshops)  
or by fax at: (517) 241-6229. Space is limited, so please register by September 11, 2003.

Serving Michigan . . . Serving you

The Michigan Energy Office can assist public facility managers with identifying and prioritizing energy efficiency opportunities in their buildings that will: reduce operating costs, increase comfort and productivity, pay for themselves through savings, increase funding for core activities, and reduce harmful emissions.

More than 150 schools, colleges and municipalities have benefited from these School & Local Government services. The energy efficiency investment potential that has been identified now exceeds \$28.2 million and the annual energy cost savings exceed \$5.1 million. The School & Local Government services are federally funded and available statewide. For more information visit [www.michigan.gov/energyoffice](http://www.michigan.gov/energyoffice).
