

Come see for yourself!

Students, teachers, and administrators are invited to our fall races. We're convinced you'll want your school to join us after you see the competitions and talk with teachers and students in our program.

Teachers who want to start an Electrathon program in their schools are invited to our advisor's workshop on October 3rd & 4th. Contact Pat Higby for more information at 319-273-6012 or higby@uni.

Reasons to join Iowa Electrathon:

- Keeps at risk kids in school
- Challenges talented and gifted students
- Involves the entire community
- Combines academics with a competitive sport
- Teaches students problem solving skills
