Conference Topic Areas

In addition to workshops and panels in the following topic areas, there will be several forums with invited participants challenged to discuss existing barriers. The goal of these forums is to produce tangible solutions that take advantage of identified opportunities and that shape policy and guide actions in the field:

- New Construction/Major Rehabilitation/Development
- Operations & Maintenance
- Procurement & Energy Management Planning
- Energy Technology & Process Updates
- Existing Building Retrofits/Upgrades

By attending this Conference, you will get an opportunity to:

- Network with fellow multifamily building energy professionals
- Learn about best practices from an international assembly of multifamily building experts
- Shape and guide policies and actions in the field
- Learn about the latest technology, methodology and techniques from top field professionals

Three-day conference registration fee \$495
