Help bring sustainable energy solutions to Brooklyn! Join your neighbors and energy experts in a dialogue on green power, solar installation, green building, energy efficiency, environmental justice, and government policy; and design a plan of action to:

- Make your home more energy efficient & drastically reduce your utility bill
- Get your energy from clean, renewable sources
- Take personal steps to use less energy
- Advocate for equitable and sustainable energy practices in our community and government

Saturday June 19, 2004, Noon - 5:30 pm
(Lunch will be served)
Intermediate School 340
Corner of Vanderbilt Avenue
& Sterling Place
Prospect Heights, Brooklyn
