## SIM VAN der RYN

Sustainability for Rural Communities  
How to + BENEFITS

COMMIT TO PLACE

Stewardship requires  
Knowledge built  
over time

pulse  
surge of  
natural  
cycles

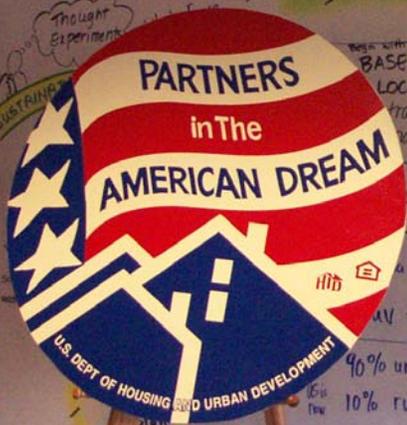

we have national and  
global metrics, but  
**WE NEED  
LOCAL METRICS!!**

In Holland,  
they made a  
**PLAN** to  
reduce pollution.

Pragmatic  
Solutions to  
Problems

People need  
future in  
own ha

We need  
empower  
ourselves

BASE CASE in  
LOCAL METRICS  
transparent our  
resident conditions

Make People  
aware

Give them the  
Something to

PRINCIPLES OF  
BIOLOGICAL DESIGN

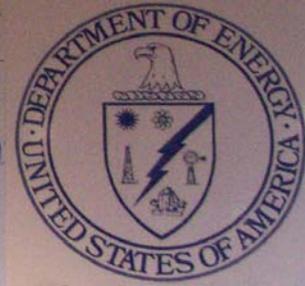

BENEFITS

Thatching technology  
is lost

SAMOA

1700 es  
"energy slaves"

40% urban  
10% rural
